**Abstract** This is a sample illustrating the style of papers for IWSDA'09 Proceedings. Please prepare and submit your papers according to this sample style and instructions.

**key words:** IWSDA'09, paper style, sample

## 1. Introduction

The proceedings of IWSDA'09 will be published as a CD-ROM and will be uploaded in the IEEE Xplore. This document describes how to prepare and submit your paper for the IWSDA'09 proceedings. Please follow these instructions carefully.

## 2. Paper Submission

### 2.1 How to Submit Your Papers

All papers should be submitted as a PDF (Portable Document Format) file with at most 4 pages via e-mail to the address:

[iwsda09@yamaguchi-u.ac.jp](mailto:iwsda09@yamaguchi-u.ac.jp)

The dead line of the first submission for review is

**June 19, 2009.**

After the notification of the acceptance, all authors should prepare their final manuscript and submit them not later than

**September 4, 2009,**

which is very strict. Papers received after this deadline will **NEVER** appear in the IWSDA'09 Proceedings.

Final manuscripts of the accepted paper should comply with the guidelines for PDF preparation for IEEE Xplore. After the acceptance of the paper for IWSDA'09, it will be informed how to check if the PDF file of the paper is IEEE Xplore-compatible.

### 2.2 Important Notices

Papers will not be included in the IWSDA'09 Proceedings if any of the following instructions are satisfied.

- The deadline of submission should be kept strictly.
- Only a PDF file can be accepted. Other file format is not acceptable.
- Keep the instructions for paper style such as fonts, margins, and so on.
- All fonts must be embedded. Do not use any local fonts in figures, tables and body of the paper.
- The file size should be about 2M bytes at most.
- The paper should not exceed more than **4 pages**.
- Do not protect your PDF file by a password.
- Check your PDF file with English version of PDF reader before submission.

## 3. Preparation of Papers

### 3.1 Format

The paper must be within 4 pages, including title, authors' names, affiliations, addresses, the corresponding author's email, abstract and keywords. All manuscripts must be in English, and be created in L<sup>A</sup>T<sub>E</sub>X2e or MS Word preferred in MS Word 2000 or higher version.

The L<sup>A</sup>T<sub>E</sub>Xtools (class file and template file) and MS Word sample file can be downloaded from the IWSDA'09 website.

### 3.2 Page Size

Please use A4 size. Don't use the letter size. The printing area is 175mm × 240mm (6.9in × 9.4in). Nothing outside this area will be printed. The top margin and left-side margin are 25mm (1.0in) and 17mm (0.67in), respectively.

### 3.3 Page Style

The manuscript should be prepared in single-space, two-column format. Please provide an informative 100 to 150 words abstract of the manuscript and 3 to 8 keywords.

### 3.4 Illustrations Style

Photos must be glossy prints without screens. All line drawings and photos should be in black and white, unless color is specifically requested (with additional page charge). Font size should be readily legible when the drawing is reduced to a 1 or 2 column width and as much as a 4:1 reduction from the original. All original materials should not be larger than 175 x 240 cm (6.9 in. by 9.4 in.), c.f. Fig.1.

**Table 1** Table Type Styles

Table	Table Column Head		
Head	Table column subhead	Subhead	Subhead
copy	More table copy <sup>a</sup>		

### 3.5 Fonts

Please use 10pt Times New Roman font as default font. The paper title has to appear in capital first letters, 16pt, boldface and centered across the top of the two-columns. The author's name has to appear in 12pt, boldface. The affiliation has to appear in 10pt.

The section headings appear in capital first letter, boldface, 12pt, numbered and flush-left format. Examples of the headings are included in this paper.

The subsection headings appear in capital first letter, boldface, 12pt, numbered, and flush-left format. Examples

of the subsection headings are also included in this paper.

The sub-subsection headings appear in capital first letter, italic, 10pt, numbered and flush-left format.

The caption of figures/tables has to appear in 9pt, centered.

**Fig. 1**  $P_u$  versus total arriving rate in three schemes.

### 3.6 Numbering

The caption of figures are numbered by Arabic numerals and placed under the figures. The caption of tables are numbered by Arabic numerals and placed over the tables. The equations are numbered with parentheses as follows.

$$E = MC^2 \quad (1)$$

### 3.7 References Style

The references appear in listed and numbered with brackets at the end of paper as follows. With items referred to by numerals in square brackets, e.g. [1].

1) Style for books<sup>[1]</sup>: Authors, title, publisher, chapter or page numbers (if desired), location and year.

2) Style for journal papers<sup>[2]</sup>: Author, first initials followed by last name, title, volume, inclusive page numbers, month and year.

3) Style for Conference papers<sup>[3]</sup>: Author, first initials followed by last name, title, proceeding name, conference's location, inclusive page numbers, month and year.

## 4. Conclusions

This paper is a sample of the style of IWSDA'07 final papers.

## Acknowledgments

IWSDA'09 is in cooperation with Engineering Sciences Society (ESS) of IEICE (Japan), IEEE (USA), IEEE Fukuoka Section (Japan), and supported by National Science Foundation of China (China).
